

OPEN LETTER TO ROBERT MUELLER BEFORE TESTIFYING

by Rennie Ackerman

July 22, 2019

Robert Mueller, it is clear you are wise,
Oh these scandals you've itemized!
But, Robert Mueller, we'd like this country to thrive,
And your report requires an IQ above forty-five.

Please break it down into bite-size chunks,
So Fox, Barr and Drumpf can't start with debunks.
You've overestimated the right and frankly the rest,
But exposing a bully is no intelligence test.
We are aware of your healthy intellect,
But please dumb it down, with all due respect.

When you're up on Cap Hill getting into your groove,
Only use terms which Dr. Seuss would approve.
Avoid three or four syllable words of confusion,
When stating your case of clear cut collusion.

When proving a falsehood, use five words or less,
No double negatives or any finesse.
When stating a fact keep it brief, keep it neat,
Take a page from DT, just tweet and repeat.

When the topic of Eric and Junior's arisen,
Choose simple words like "treason" and "prison."
When the question of meetings in Trump Tower arise,
(Not re: adoption but our nation's demise),
Make no fancy prattle,
Leave nothing to doubt.
This is a battle;

We must get these folks OUT.

Dear Robert Mueller,

It is this I beseech:

In simple terms, please teach and please preach,

Until it is clear that he must be impeached.

And when it is over,

And all said and done,

You will soon realize

When they fall one by one,

That in this Trump era

Rude and crude's how it's won.
